

## Uitzend Group-F – Maintenance Technician - Vlaams-Brabant Region

As a **maintenance technician**, you ensure that the installations of our clients remain in top condition. You are a true all-rounder and are not afraid of both electrical and mechanical challenges. With your expertise, you ensure that all systems function perfectly and processes continue to run smoothly. You also take the initiative to make machines more efficient.

Your tasks also include analyzing problems and processing maintenance data. You are comfortable with Office applications and quickly find your way in them.

Does this sound like a challenge tailored to you? We look forward to receiving your application!

As a **maintenance technician**, you will perform electrical and/or mechanical maintenance on the industrial installations and production machines of our clients. You will look for solutions to technical problems and will frequently switch between assignments and/or clients.

- **At least 3 years of experience** as a maintenance technician, both electrical and mechanical. Knowledge of PLCs and frequency drives is a must.
- A passion for technology and a strong drive to solve problems.
- A customer-oriented attitude: you are the face of our company to the customer.
- Flexibility and a willingness to work in a varied environment. Your assignments change per client.
- Good knowledge of PC and Microsoft Office applications.
- Willingness to work in at least two shift systems.
- Residing in the Limburg, Antwerp, or Flemish Brabant region, with a maximum commute distance of 45 minutes.
- In possession of a **driving license B**.
- You identify with our core values: **safety, unity, teamwork, engagement, openness, and professionalism**.

At our company, you will be part of a top organization where you, as a technician, are at the center. Here's what you can expect:

- **Competitive salary** supplemented with benefits such as meal vouchers, eco vouchers, etc.
- A **company car** with a fuel card (for private use), professional tools, safety gear, and a mobile phone subscription.
- **Variety in assignments** that provide opportunities for both professional and personal growth.
- Access to our comprehensive **training offerings**. Don't have your VCA, BA4, BA5, aerial work platform, or forklift certificate yet? No worries, we'll help you obtain them.
- Participation in **social and team-building activities** such as our petanque tournament and the annual family brunch.
- **Temporary contract** with the option of permanent employment.
